At the moment, you cannot include any Peregrine or Gecko's polar trips to your website because our current feeds will not display any useful content. Our current feeds are not set up to accommodate polar prices because they display tour prices as opposed to cabin prices that are required for polar trips. As I said earlier, once we have completed this upgrading project in a few weeks, you will be able to display polar trips and we will send you information about what feeds you will need to use. But, in the meantime, you can only display non-polar trips.

Many thanks, Helene Lee

Hi Andy,

We found some problems last week with regard to the XML in that had started running in a loop and hence causing our site and others to time out which is clearly not productive for anyone.

We should have an update for you early next week.

Apologies for the delay but I am sure you, as much as us, want everything to be working properly

Regards

**Subject:** The Adventure Company & Living Adventure

Hi Andy,

I understand you've been speaking to Rich Hanson at our sister company Trek America and he suggested that I drop you line. I work for The Adventure Company, part of the PEAK Adventure group, we are a UK based small group tour operator who specialise in Family Adventure holidays, offering over 120 itineraries worldwide – from South East Asia to Europe, Africa to the Americas.

These fantastic, inspirational holidays are designed with families in mind, with activities included to stimulate both children and adults. They are led by local group leaders who are sensitive to the particular needs of family travellers and many of our trips are suitable for families with children as young as 6 years old. We have dedicated Teenage Adventures for families with older

children, as well as special trips allowing travellers to get 'Hands on' for a few days as part of a community or conservation project visited within their holiday.

Full details of all our trips can be found on our website [www.adventurecompany.co.uk](http://www.adventurecompany.co.uk) or you can view our online brochure here:

You don't currently sell our products, and I was wondering if you would be interested in doing so? We offer great rates of commission, a dedicated agent resource at the end of the phone / email to answer any queries or questions, an xml feed to help populate your website with our trips and other support as and when you might require it. I'd love a conversation about getting our trips set up with Living Adventure if you felt it was an area which may appeal to your clients.

I hope to hear from you soon,

Kind regards

### **Audit of INTREPID XML Data imported for Living Adventure**

Speaking to my developers please use the following.

This one is to get all trips: [http://www.intrepidtravel.com/Livingadventure\\_XML/ALL](http://www.intrepidtravel.com/Livingadventure_XML/ALL)

And this one to get by region: [http://www.intrepidtravel.com/Livingadventure\\_XML/Region/{region\\_name}](http://www.intrepidtravel.com/Livingadventure_XML/Region/{region_name})

Just 2 points:

1. We may have same trip appearing on multiple regions
2. They should update their database periodically because trips and regions change quite often.

#### **JENMAN: HTML FEEDS**

Hi Andy,

Our developer said that the XML is unique and the number will be specific to the tour. If we replace the tour – the number will not be issued again. Updates that we do will flow automatically through to your site. Hope that answers your question?

<http://www.jenmansafaris.com/safaris.xml?sid=429> – XML feed for our scheduled tours... Sarah (marketing assistant) will update and add the 2011 dates shortly. She also updates that page (your feed) once a week which will update your system.

Hi Andy.

Thank you for your interest.

We could offer you a simple referral option where you embed a link under a rail tab and clients are directed to us however if they make a booking we can track and pay you commission.
